Dear \_\_\_\_\_

Enclosed you will find important information that will be helpful to you in your internship. Please read the material and utilize the suggestions to make the most of your internship experience. Much of the material must be turned in as part of the internship credit you will receive.

We require you to keep a journal of your internship experience; this will be a journal or online blog you maintain. At the completion of 5 - 10 hours, you will complete a journal or blog entry for your portfolio. In addition, you are required to give a final presentation at the end of the internship. The employer, school representatives, parents and others may be present during your presentation. This will be the time to share what you have learned and also thank the people you have worked with during the internship.

Your journal will be a key element in preparing your presentation. You will use your journal or blog entries to recall information and experiences you might have otherwise overlooked if they had not been written down. You will prepare a PowerPoint presentation for the internship presentation. Completion of the internship, the journals, required forms, evaluations, and participation in the presentation will secure the internship credit (1 elective credit).

The positive impression you make will be helpful to you in the future when you are seeking a reference or a permanent position. Recognize that through your job performance you are also creating an impression for the entire school. We hope this experience will ensure that your employer will warmly receive future interns. Your internship will give you a chance to demonstrate your competence and initiative; we hope you will use it as an opportunity to learn and grow.

Sincerely,

Geof C. Duncan, Career Academy Coordinator  
Knightdale High School

### **INTERNSHIP SUPERVISOR: GUIDELINES FOR BEGINNING INTERNSHIP**

---

*The student intern should complete the three learning objectives prior to meeting with the supervisor.*

The student should begin the internship by discussing with you the learning objectives and the intern's responsibilities. The expectation is that the two of you will review these and adjust them to the needs of the internship provider.

Efforts have been made to match the student's learning objectives with the internship provider. However, the needs of the provider will supersede the original expectations of the student so long as they are related to the school system's goals of the student's internship experience.

### **INTERNSHIP JOURNAL/BLOG**

---

The internship journal provides an opportunity for you to write about your learning experience. There are several ways that you can use your journal to examine your internship experience. Some of its uses are to examine new knowledge and skills, to discover what you feel as a result of experiences in your internship, and to reflect on your own learning. In your journal you can reflect on successes or problems, as well as anxieties or other feelings you have about your internship. You may record your responses to difficulties that come up during the course of your internship. In addition, you may record your personal reactions to teachers, internship coordinators, supervisors or co-workers or groups you take part in. You may use the journal to record any problems you are having that interfere with your learning experience.

**Directions:** You will begin your journal at the start of your internship. The journal will be used to help determine your final grade (25%).

Futures For Kids may also be used for your journal entries if you have a F4K account.

If using the blog: after the internship and blog permission forms have been turned in, the Internship Coordinator will set up a blog site for you.

- The Internship Coordinator will be the administrator and you will be the author.
- You will receive an email invitation from blogspot.com that you must accept to be an author.
- To begin, only you, your supervisor, and the Internship Coordinator will be allowed to see your blog entries. With approval, the blog may be available for others to see and comment on.

The blog address will be given to you by the Internship Coordinator. You must complete one blog or journal entry every 5 – 10 hours of work with one final entry for a total of 10 entries.

The journal format should be followed with emphasis on the reflection. Please follow these guidelines in your blog/journal entries below:

- Only use first names
- Do not include any personal information such as email addresses, phone numbers, addresses, etc.
- Follow all school guidelines
- Follow any guidelines provided by your supervisor

#### **Required Journal Entries:**

1. Define the purpose of the business/organization – what they do, structure, who are their customers, etc. What is your job description – what will you be doing, who will you work with, where do you fit in, etc.?
2. Describe the work atmosphere. How are decisions made, is it cooperative or competitive, what is the dress code and work ethic of the organization?
3. How has your classroom experiences prepared you for the internship? What do you wish you had learned prior to the internship?
4. How is the internship meeting or not meeting your expectations/objectives and why? Do you have control of this? Explain.
5. What do you feel is your main contribution to your internship site? What have you done at your internship that makes you proud? Why?
6. How have your duties changed since you first started? Have you been given more responsibility?
7. How has this experience affected or changed your career/college plans?
8. What have you learned about yourself and what you want in a career?

9. What major problems or frustrations have you experienced or observed in your work? How did you handle it?
10. Write a final reflection of the entire internship experience.

**Date(s):** 7/19/10 - 7/22/10

**Activities:** Edit and Crop Videos, Work on Intranet

**Technical Information:** VideoPad, Adobe Dreamweaver CS4, Canon Video Camera

**Reflection:** As The Hamner Institutes continually is expanding their partnerships and relationships with other companies, one major connection is with China. This week, the majority of my time was devoted to cropping and editing videos of speakers from China and The Hamner at important events. Even though most of the videos were in another language, it was interesting to see the presentations. To edit the videos, I used software called VideoPad, which was rather easy to pick up and learn. The only frustrating part about the program is how long it takes to make the video into a movie and how long it takes to upload a video file. Other than those two issues, VideoPad is great editing software to use!

When I wasn't working on editing China presentation videos, I would work on the intranet. In all, I have 13 pages to make, with many subpages under each! It's been hard to get people to meet with me about their webpages, but it's coming along! So far, I have completed 3 of the intranet sites and have 10 pages left to finish before I leave! Fortunately, it doesn't take me that long to make a site; typically, I only need one day to complete one of the 13 webpages.

I believe my main contribution to The Hamner is tying up loose ends to projects that need to be completed. For example, many of the posters that I have worked on are now completed and ready to be printed. Also, working on these videos from the China presentations probably wouldn't have been done quickly if I hadn't taken on the project! Overall, I'm here to learn and experience what work life is like and have learned so many new skills along the way!
